ABOUT ME

Himanshu Patro, an undergraduate at the Institute of Technical Education and Research, SOA University Bhubaneswar, with a specialization in full-stack web development. Experienced in developing dynamic, responsive, and user-friendly web applications with both front-end and back-end technologies. Enthusiastic about crafting seamless digital experiences and keeping up with industry trends and emerging technologies.

EDUCATION

BTech in CS&IT ITER, SOA University (7.7 CGPA up to 6 th Semester)	2022- Ongoing
Higher Secondary Education St. Mary's English High School, Jamshedpur 65.6%	2022
Secondary Education St. Mary's English High School, Jamshedpur 83.5%	2020

EXPERIENCE

Summer Intern-2mos | Celebal Technologies **July 2025**

Service Desk Application (Frontend)

1. Developing and maintaining user interfaces using React.js for a Service Desk application.
2. Ensuring cross-browser compatibility and performance optimization for various screen sizes.
3. Implemented ticket creation feature allowing users to raise support tickets by entering issue description, priority level, and selecting a category.
4. Integrated real-time ticket status tracking for users to monitor progress and receive timely update.

Application Development Intern | Tata Steel Ltd. **July 2024**

Designed and Developed Dashboard

1. a full-stack login/signup dashboard using the MERN stack (MongoDB, Express.js, React.js, Node.js) as part of an internal project to streamline user access and management.
2. Ensured clean, modular code with proper folder structure and adherence to RESTful API principles.
3. Designed responsive frontend interfaces in React.js with form validation, error handling, and role-based redirection.
4. Ensured responsive design and seamless UX across devices using CSS Modules / Tailwind CSS.

PROJECTS

LOGIN/SIGNUP DASHBOARD

1. **Built responsive UI components** in React.js with Ant Design and custom CSS to deliver a seamless and intuitive user experience across multiple devices.
2. **Implemented secure user authentication** and authorization mechanisms using JWT (JSON Web Tokens) and bcryptJS for password hashing, ensuring data security and user privacy.
3. **Developed RESTful APIs** for user registration, login, and session management, ensuring real-time data flow between the front end and the back end.
4. **Integrated MongoDB** as the database to store and manage user data.

e-PMSSS: DEVELOPMENT OF PAPERLESS SCHOLARSHIP DISBURSEMENT SYSTEM

1. **Developed a full-stack web application** using the MERN framework of MongoDB, Express, React, and Node to automate the wings of scholarship application processing and disbursement, thus eliminating the use of manual paperwork.
2. **Implemented robust security measures** with bcrypt.js for password hashing, safeguarding sensitive user data and maintaining privacy.
3. **Developed scalable REST APIs** to manage student applications, data validation, and admin-side verification, enabling real-time communication between the front-end and back-end.
4. **Optimized data management** by integrating MongoDB, providing a reliable and efficient solution for storing and retrieving application records and user information.

SKILLS

Languages	Java , C++ , HTML/CSS
Frameworks	React.js, Node.js
Soft Skills	Self Learning, Problem-Solving, Adaptability, Decision Making
Language	English, Hindi

EXTRA-CURRICULAR ACTIVITIES

- Passionate about music and enjoy exploring different genres, involved in learning (instrument/vocal), and regularly attend live performances and music-related events.
- Participated in the college-level round of the Smart India Hackathon, a nationwide innovation competition aimed at solving real-world problems through technology-driven solutions. Collaborated with a team to brainstorm and develop a project concept, showcasing problem-solving, teamwork, and technical skills.
